attending difficulties; at times rendering my life most missrable. I have had the attendance of some of the best physic ans, with leat little success; the most they could do was to relieve—a cure was out of the question. For five months before commencing with your medicine, I had not been able to perform any labor, could walk but a few steps at a time, and care sly went out of doors—in short, I was completely prostrated, both in body and mind, and expected to drag out the rest of my days in soffering and misery. But, reading your advertisement, I was induced to try your invaluable medicine called Uterine Catholicon, as the last resort. I had not used it a week before I felt like another woman. By the use of three bottler I was cashed to perform all the labor for six in the family with ease, and could could walk anywhere in the neighborhood without injury. Nothing but a sense of my duty to you and to the afflicted, has induced me to state my case to the public. I can safely recommend the preparation to all those suffering like myself.
